<https://escorteurogirls.com>

How to get the "Verified" badge?

You need to have a model profile on the site with the profile fields filled in and wait for it to pass moderation. After that, you can proceed to the verification of the questionnaire. To do this, go to your personal account and visit the "Control" tab

On this page, below the photo and profile name, you will see the "Edit account" button. Click on it - an additional menu will open - it has the item "Confirm the profile" - we need it.

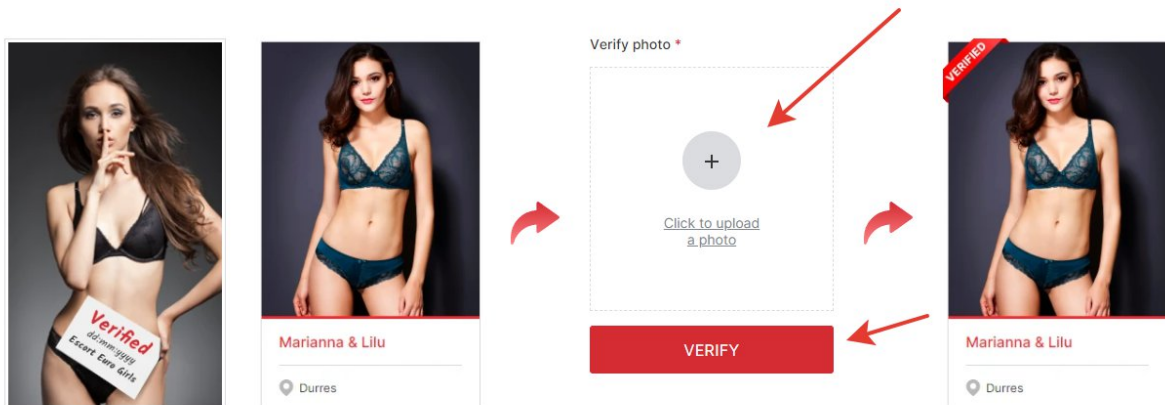

By clicking on it, you will be redirected to a page where we have described in detail the benefits of the "verified" status and the requirements for obtaining it. To undergo the procedure, you need to prepare a photo that will meet the requirements:

- Photo in underwear
- The face and whole body must be visible
- On a piece of paper you need to write the name of the Escort Euro Girls site, the current date and the word "Verified"
- Make a gesture by placing your finger on your lips (as in the example)
- It is highly desirable to keep the make-up and hairstyle as in your profile photos (to avoid moderation errors)

After that, you need to click on the "click to upload photo" button and after that on the "Confirmed" button

- IMPORTANT!!! Make sure you have a make-up on the verification photo which is as close as possible to the pictures in your profile and also you have the same hairstyle!
- in case your face is blurred or your head is not visible on your profile photos, please, upload also at least one of the photos from your profile with a clear face together with the verification photo.

**TIP:** Here is the tip how to take a photo with all requirements in case you take the photo yourself. Place the paper with the required text under your lingerie, so the text is visible. Make the gesture with your finger on your lips and with your other hand take the photo in front of the mirror. Please, make sure that your whole body and face is visible on the photo.

Please consider, that we can identify you on your uploaded photos easily by using these verification photos. If your uploaded pictures don't meet our requirements it will be rejected. We get back to you in 48 hours with the result.

Your request will be reviewed within 48 hours, after which you will receive a verification notification by mail and in your personal account. Congratulations, now your profile will see the maximum number of potential customers who trust only verified profiles!
